Department of Agriculture, Cooperation & Farmers Welfare is implementing 'Per Drop More Crop' component of Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) which focuses on water use efficiency at farm level through Precision/Micro Irrigation (MI). Besides promoting precision irrigation and better on-farm water management practices to optimize the use of available water resources, this component also supports gap filling interventions like micro level water storage or water conservation/management activities as Other Interventions(OI), to complement and supplement the works under taken through various national/state level programmes for drought proofing measures.
Based on current year's budget allocation (BE) for Per Drop More Crop, demand and performance of States during previous years, the allocation to all the States has been made for Micro Irrigation (MI) and Other Interventions (OI) under 'Per Drop More Crop'. The State-wise allocation for MI and OI under Per Drop More Crop during 2017-18 is Annexed.
